

Execution Flow Chart

Single ETA prediction request from dashboard to operational result

FLOW 1 OF 3

Prediction outputs

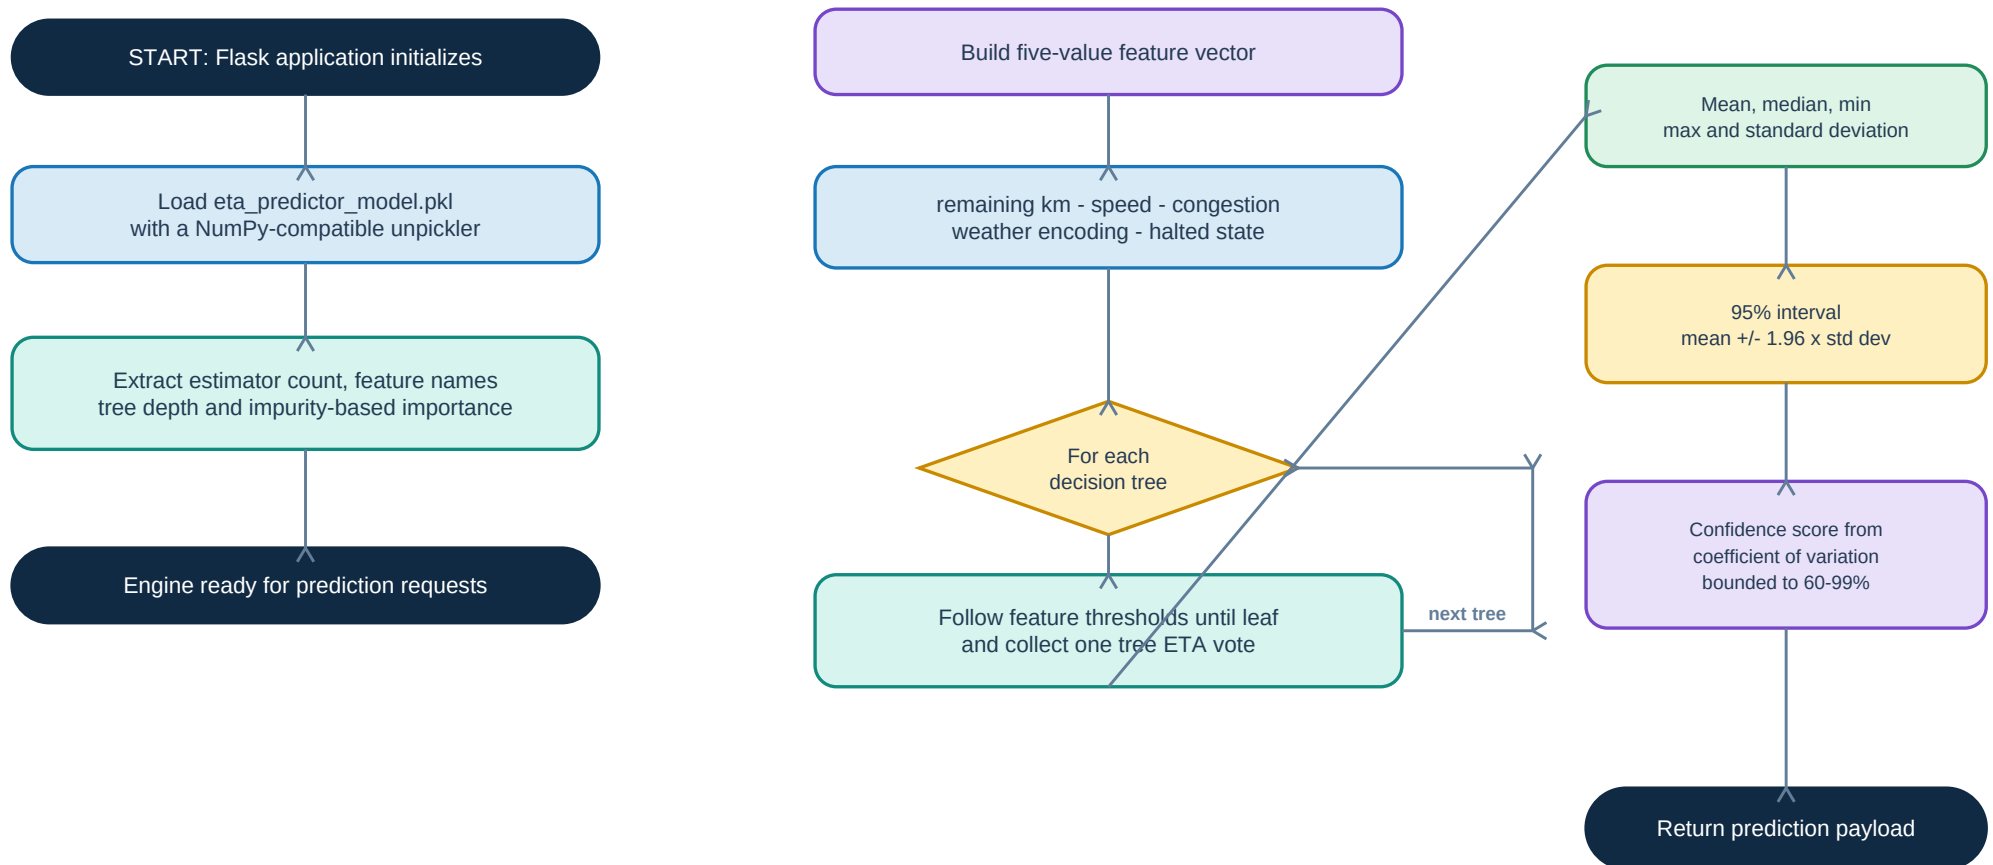

- Predicted remaining minutes
- Formatted ETA and arrival clock
- 95% confidence interval
- Delay versus free-flow travel time

Random Forest Prediction Engine

Model loading, tree traversal and confidence calculation

FLOW 2 OF 3

Batch Prediction and Validation Flow

FLOW 3 OF 3

CSV or JSON rows are predicted and evaluated when ground truth is available
